

## Theme: 14. TRAVEL ORGANISATION

Poi nts	K	No.	Question, answers	Figure
1		14/1.0	<p><b>Daily travel under the same conditions and using the same route causes habituation to the road conditions and weakening of attention.</b></p> <p>true false</p>	
1		14/1.1	<p><b>Daily travel under the same conditions and using the same route:</b></p> <p>causes habituation to the road conditions causes weakening of attention while travelling allow the driver to drive safely at a speed higher than the permitted</p>	
1		14/2.	<p><b>In case of long-distance travel, it would be safer for the less experienced driver if:</b></p> <p>the driver avoids travelling at night the driver does not drive at high speed the driver avoids driving on highways</p>	
1		14/3.	<p><b>In case of forthcoming long-distance travel, the travel would be safer and easier:</b></p> <p>by prior route planning by planning the appropriate stops for rest if the travel involves only a few stops if the travel is carried out at night</p>	
1		14/4.	<p><b>A reason for faster occurrence of fatigue in the driver of a motor vehicle is:</b></p> <p>the incorrect posture while driving conversations with the passengers in the vehicle the billboards by the road</p>	
1		14/5.	<p><b>The incorrect posture of the driver while driving causes faster occurrence of fatigue.</b></p> <p>true false</p>	
1		14/6.	<p><b>What are the consequences for the driver when driving with an unadjusted seat for a long time?</b></p> <p>faster occurrence of fatigue spinal and muscular tension and pain stays concentrated for a longer period of time reduction of fatigue</p>	
1		14/7.	<p><b>Why must the driver of a two-wheeled motor vehicle drive using special outfit for that purpose?</b></p> <p>in order to be adequately protected in case of accident in order to feel comfortable while driving in order to be protected from bad weather conditions</p>	
1		14/8.	<p><b>If there are cracks in the protective helmet of the driver of a two-wheeled motor vehicle, it is necessary:</b></p> <p>to replace the helmet with a new one to drive the motor vehicle at a low speed to repair the helmet using glue</p>	
1		14/9.	<p><b>The driver is not adequately protected while driving a two-</b></p>	

			<p><b>wheeled motor vehicle when:</b></p> <p>the driver's protective helmet is cracked</p> <p>the driver is not wearing special outfit</p> <p>the direction indicators of the two-wheeled motor vehicle are not functioning</p>	
1		14/10.0	<p><b>Is the driver obliged to wear a protective helmet when driving a two-wheeled motor vehicle in a populated area?</b></p> <p>yes, in all cases</p> <p>yes, but only when driving at high speed</p> <p>no</p>	
1		14/10.1	<p><b>Is the driver obliged to wear a protective helmet when driving a two-wheeled motor vehicle outside a populated area?</b></p> <p>yes, in all cases</p> <p>yes, but only when driving a motorcycle</p> <p>no</p>	
1		14/11.0	<p><b>The transport of objects on the vehicle's roof causes increase in the fuel consumption.</b></p> <p>true</p> <p>false</p>	
1		14/11.1	<p><b>The transport of objects on the vehicle's roof causes:</b></p> <p>increase in the fuel consumption</p> <p>increase of the vehicle's stability while making turns</p> <p>increase of the vehicle's stability in the presence of side wind</p>	
1		14/12.0	<p><b>The fuel consumption of the vehicle during movement:</b></p> <p>increases in case of transport of objects on the vehicle's roof</p> <p>increases if the tyre pressure is low</p> <p>decreases as a result of frequent braking</p> <p>decreases in case of rapid acceleration</p>	
1		14/12.1	<p><b>The fuel consumption of the vehicle during movement increases:</b></p> <p>when transporting objects on the vehicle's roof</p> <p>if the tyre pressure is low</p> <p>in case of less frequent braking</p> <p>in case of rapid acceleration</p>	
1		14/13.	<p><b>Is it allowed to refuel a vehicle while the engine is running?</b></p> <p>no</p> <p>yes</p>	
1		14/14.	<p><b>While refuelling the vehicle, smoking is:</b></p> <p>forbidden</p> <p>allowed only outside the vehicle</p> <p>allowed only inside the vehicle</p>	
1		14/15.	<p><b>The maintenance of clean and visible registration plates of the vehicle is an obligation of:</b></p> <p>the driver</p> <p>the owner of the motor vehicle</p> <p>the passengers</p>	
1		14/16.0	<p><b>How is the vehicle driveability affected by the low tyre pressure?</b></p> <p>driveability deteriorates</p> <p>driveability improves</p>	

			does not affect driveability	
1		14/16.1	<p><b>Does the low tyre pressure affect the vehicle driveability?</b></p> <p>yes no</p>	
1		14/17.	<p><b>How does the low tyre pressure affect the vehicle's performance?</b></p> <p>the vehicle driveability deteriorates fuel consumption increases has no effect</p>	
1		14/18.0	<p><b>Low tyre pressure causes an increase in fuel consumption.</b></p> <p>true false</p>	
1		14/18.1	<p><b>How does low tyre pressure affect fuel consumption?</b></p> <p>causes an increase causes a reduction has no effect</p>	
1		14/19.	<p><b>While driving, if the brake pedal "goes down" when pressed and the breaks are not applied, the driver must:</b></p> <p>quickly release the pedal and press it again continue pressing the pedal without releasing it press the clutch pedal</p>	
1		14/20.	<p><b>If a driver who has consumed alcohol must drive a motor vehicle:</b></p> <p>the driver must wait until the effect of the alcohol has passed around 2-hour sleep is needed it is enough to drink a strong coffee or strong tea without sugar it is enough to drink up a cold energy drink</p>	
1		14/21.	<p><b>What advice would you give to a driver who has consumed alcohol?</b></p> <p>take a taxi or use other type of public transportation wait until the effect of the alcohol has passed drink a cup of strong coffee and then drive drive carefully and at low speed</p>	
1		14/22.	<p><b>If a driver must take a medication and the driver does not know if the medication is compatible with driving of a motor vehicle:</b></p> <p>prior to taking the medication, the driver must consult a physician or a pharmacist the driver may take the medication, but he/she must also consume energy-boosting drinks the driver must not continue driving after taking the medication, if he/she does not know whether the medicine is compatible with driving prior to taking the medication, the driver must get acquainted with the medicine description intended for the patient</p>	
1		14/23.	<p><b>Are there any medications, for which, if taken by the driver, driving of a motor vehicle is prohibited?</b></p> <p>yes no</p>	
1		14/24.	<p><b>What should you do if you have to drive a motor vehicle, but you take a medication without knowing whether it is compatible with driving?</b></p>	

			<p>I must get acquainted with the medicine description intended for the patient</p> <p>I may take the medication and drive if I feel well</p> <p>I may rely on an advice from a friend or a relative, and drive prior to taking the medication, I must consult a physician or a pharmacist</p>	
1		14/25.	<p><b>What should you do if you have to travel, but you have taken a medication which adversely affects driving?</b></p> <p>I will find another driver for the travel</p> <p>I will drive at low speed</p> <p>I will drive avoiding heavy traffic areas</p>	
1		14/26.	<p><b>May a motor vehicle be driven if the driver's health condition has deteriorated?</b></p> <p>no, the driver must not drive</p> <p>yes, but after a long period of rest</p> <p>yes, but after taking an appropriate medication prior to driving</p>	
1		14/27.	<p><b>Driving of a motor vehicle after taking a narcotic substance is:</b></p> <p>forbidden</p> <p>allowed without restrictions</p> <p>allowed if taken according to a physician's prescription</p>
